

# Cert Incentive for New Members

## New Members

- If you join Continua between now and the **end of 2012**, **you get:**

–All existing benefits of Continua membership (CESL code, free Test Tool, matchmaking, etc.).

–PLUS –

- Free certification testing for one device before EO 2012.
- Free listing for one device (Type A or Type O).

## Notes Regarding this Certification Incentive:

1. Only one offer per company/subsidiary.
2. Covers certification for one device specialization and one transport. Additional device specializations/transport follow typical fees, which is \$750 per device specialization and \$900 per transport, up to a max additional fee of \$3500.
3. If a retest is required then retest fees are not included. Retest fees are ½ the true certification cost, so \$2500 - \$4,250.
4. The deadline refers to the date company is ready for certification (device is at Test Lab, certification application has been received and approved). Actual test completion date is dependent on Test Lab volumes.
